

Technische Daten

Für Anwendungen im Fahrzeugbau (hydraulische Bremsleitungen),
Austauschbarkeit gemäß ISO 5676 und NFU 16006

Material:

Gehäuse: Stahl
Dichtung: NBR

Oberfläche:

Material: Chrom III
Beständigkeit gegen Weißrost [h]: 96
Beständigkeit gegen Rotrost [h]: 200
Temperaturbereich: -25 °C bis +125 °C

Technical data

For applications in the field of vehicle construction (brake lines),
interchangeable according to ISO 5676 and NFU 16006

Material:

Housing: Steel
Seal: NBR

Surface:

Material: Cr III
Resistance against white rust [h]: 96
Resistance against red rust [h]: 200
Temperature range: -25 °C to +125 °C
